A perfect union of efficiency and performance, it’s no wonder Architrac® can be found in such a variety of spaces. From homes, businesses and commercial applications, Architrac® offers multiple configurable styles to suit your needs and exceed your expectations. This performance focused product will glide through your most demanding applications with ease.
Why Architrac®?

The Architrac® heading system supports the three most popular drapery heading styles, Ripplefold™, pleated and cubicle. Outstanding functionality for commercial applications, versatile enough for residential applications, Architrac® delivers performance for the most demanding applications. All assembled sets come complete and ready-to-install, and are available in baton and cord draw systems, or Series 94001 can be upgraded with Briza™ Motorization.

A perfect complement to the Architrac® series, our new K-Rail allows you to use any of our 1¼” finials from any of our collections, no matter the material or finish. You now have the ultimate power to customize your design since our K-Rail is designed in finishes that complement all of our collection finishes perfectly. You can finally bring your project to another level of customization.

Benefits & Features

Briza™ Motorization

- Easy to use
- Quiet, powerful motor
- Pleated or Ripplefold™ drapery heading styles
- Available on Architrac® Series 94001 or Estate™ Rods only
- For more information on Briza™ Motorization see page 6

Ripplefold™

- Panels can be pressed flat, yet fall into folds
- Headings are suspended under the track
- No hooks or pins to install
- Stack back space is less than conventional Pleated draperies
- Draperies snap on and off carriers for easy installation
- Interior drapery appearance is identical to exterior-facing drapery appearance

Pleated

- Can be used with most track systems using slip-in or pin-on hooks
- Headings can be suspended under the track or over the face of the track to conceal hardware
- A popular drapery heading style

Cubicle

- An excellent choice for where privacy is necessary; often found in healthcare facilities, this heading style can be used more creatively as a soft treatment room divider or a unique shower curtain rod
- Smooth, snag free operation
- Made of extruded aluminum for extra durability
- Inner surface is center grooved for easy installation

Cubicle

- Can be bent*
- Can be curved*

Architrac® at a Glance

To help determine which system is right for your project, use the guideline below to select the best fit.
